KAFUE WILDERNESS EXPERIENCE – ZAMBIA

On the **Kafue Wilderness Experience**, you will journey through mixed Mopane and Miombo woodland, interspersed with a network of Dambos - seasonally flooded areas adjacent to ephemeral riverbeds.

Kafue National Park is Zambia's largest and oldest Park and is classic Big-Game country. A Wilderness Trail in this wild, virgin environment, filled with animals that have scarcely, if ever, seen humans before, will expose you to Nature's fine detail, the grandeur of the landscape and the thrill of moving among iconic large mammals. Well beyond an activity, this is a fully immersive experience that permits participation in Nature as opposed to traditional spectatorship.

It creates the space for personal, social and Wilderness regeneration.

It is real, visceral and completely authentic.

What to Expect

Kafue National Park, one of Africa's largest and most remote protected areas, is a vast mosaic of untouched Wilderness. Its sweeping Mopane and Miombo woodlands, interspersed with seasonally flooded dambos, support an exceptional diversity of wildlife, from large elephant and buffalo herds to elusive species such as cheetah, wild dog, and sable antelope. With its low visitor density and immense ecological variety, Kafue offers one of the continent's most authentic safari experiences.

The focal point of the 7-day Experience is the 3-night Wilderness Trail that takes place in the remote Malala Wilderness Area West of Lake Itzhi-tezhi, along the seasonal Musa and Luangandu Rivers.

Led by a Professional Wilderness Trails Guide and a Wildlife Police Officer (WPO) from the Zambian Department of National Parks and Wildlife, with years of Trail experience each, groups will spend three self-sufficient nights in the wild.

Each guest will carry all their equipment on their back and enter a world only accessible to a privileged few. The group will set their own pace and explore

according to their interests and capabilities.

There are no demarcated campsites or routes. Each night is spent under the stars (no tents) at a pristine location with participants sharing the responsibility of 'night-watch duty'.

The Wilderness Trail is paired with a 3-night stay at Nanzhila Lake Camp (1-night pre and 2-nights post Trail), situated on the tranquil shores of Lake Itzhi-tezhi. From this beautiful lakeside setting, guests can settle into the rhythms of the landscape before and after their Trail immersion.

While on the 3-night Wilderness Trail, **guests carry all of their own gear in their backpacks** (+-15kg) for up to 10km per day. Therefore, a good level of physical fitness and stamina is required.

The Kafue region has a hot climate with a distinct wet and dry season. The Trail season is therefore limited to months in the dry season, June, July, August, September and October when conditions are most favorable.

Expect daytime temperatures in the mid-20 degrees Celsius, with night-times sometimes dropping as low as 5 degrees Celsius.
